

PROJECT 2 OVERVIEW: SETTING FINANCIAL GOALS

WHAT DO I WANT TO ACCOMPLISH FINANCIALLY?

Setting goals helps you visualize the gap between where you are and where you want to be. In this assignment, you will:

- Identify the purpose of financial goals
- Explore the criteria of a well-written goal
- Formulate four financial goals
- Prioritize your goals
- Time-related goals can be sorted into three categories:

Short-term – goals that can be achieved in less than one year

Intermediate-term – goals that can be achieved within one to five years

Long-term – goals that will take more than five years to achieve

If you establish unrealistic short-term goals, you face a high likelihood of failure. Instead, set financial targets that are almost too easy to meet.

ASSIGNMENT INSTRUCTIONS

Use Student Handouts 2B – 2E to fine-tune your financial goals. For each goal, you'll follow these steps:

Step 1: What is your goal?

Step 2: What is the target date for reaching your goal?

Step 3: What is the estimated cost?

Step 4: Can you cut back on current spending to put toward your goal?

Step 5: Can you increase income to put money toward your goal?

Step 6: How much money will you need to save monthly?

Once your goals are clearly identified, you'll prioritize them (using Student Handout 2F). Give priority to paying off high-interest debt. Another way to determine the priority of your goals is to create a list of the benefits that will occur when you reach them. Having goals influences your decisions and helps you stay focused on what is most important to you.
